WORK EXPERIENCE

Mizuho Securities, New York, NY

Fixed Income Sales & Trading Summer Analyst, June 2025 – August 2025

Monitored FX and MBS desk activity daily for risk exposure and regulatory compliance, escalating anomalies to desk leadership. Gained exposure to broker-dealer compliance workflows. Automated P&L reporting workflows in Python to reduce manual errors and improve document standards for daily market updates sent to traders, portfolio managers, and sales teams.

Major League Baseball Players Association, New York, NY

Finance Intern, October 2024 – May 2025

Maintained and organized confidential records for player contracts, licensing agreements, and CBA materials. Developed document management skills applicable to regulatory compliance practices. Built three financial tracking tools to reconcile player compensation, licensing revenue, and CBA allocations. Improved transparency in a regulated collective bargaining environment.

HarbourVest Partners, Boston, MA

Portfolio Analytics Intern, June 2022 – May 2024

Analyzed and reconciled investor portfolio data for 50+ private market funds, improving accuracy of metrics. Retrieved and validated financial statements and capital account data in investor portals, ensuring data integrity for internal reporting and compliance purposes

Barings Asset Management, Charlotte, NC

Portfolio Solutions & Analytics Intern, June 2024 – August 2024

Developed Python-based statistical and machine-learning tools to flag anomalies in trading data for the Investment Grade credit team, supporting monitoring and data-integrity practices across 100+ corporate issuers

Chicago Trading Company, Chicago, IL

Quant Trading Summer Analyst, June 2023 – August 2023

Supported quantitative trading operations using live trading systems and market data tools; completed training in options pricing theory and derivatives mechanics

LEADERSHIP & PROJECTS

Columbia Lioness Quantitative, New York, NY

Founder, Co-President, November 2024 – March 2026

Founded Columbia's first women-in-quant finance organization; implemented organizational processes, mentorship programs, and an education curriculum to support 150+ members. Managed corporate sponsorships, coordinated events, and ensured compliance with university policies

Natural Language Processing in Finance – Prof. Houlihan, New York, NY

Content Extraction and Analysis of Earnings Call Transcripts, September 2024 – December 2024

Built a pipeline to clean, organize, and extract themes from 5,000+ paragraphs across 10 companies' earnings call transcripts, applying analysis to identify recurring topics and patterns. Linked sentiment and topic distributions to distinguish company-specific from industry-wide information, translating unstructured text into organized, impactful findings

SKILLS

Programming Languages: Python, Java, C++, R, SQL, STATA, Excel, Tableau

Languages: German (Intermediate), Russian (Intermediate), Spanish (Beginner)

Interests: Chess, Sailing, Poker, and Volleyball
